

filex sample — page 1

Realistic multi-page PDF for the viewer audit.

This PDF is generated by reportlab during fixture rebuild.
The audit uses it to verify the native PDF viewer mounts cleanly.
Page count > 1 exercises navigation (next/prev page).
Body text uses Helvetica so non-ASCII glyphs aren't required.

filex sample — page 2

Realistic multi-page PDF for the viewer audit.

This PDF is generated by reportlab during fixture rebuild.
The audit uses it to verify the native PDF viewer mounts cleanly.
Page count > 1 exercises navigation (next/prev page).
Body text uses Helvetica so non-ASCII glyphs aren't required.

filex sample — page 3

Realistic multi-page PDF for the viewer audit.

This PDF is generated by reportlab during fixture rebuild.
The audit uses it to verify the native PDF viewer mounts cleanly.
Page count > 1 exercises navigation (next/prev page).
Body text uses Helvetica so non-ASCII glyphs aren't required.
